SUMMARY

I am a full stack developer specializing in React Native and the MERN stack (MongoDB, Express, React, Node.js), with experience building fast, scalable products. I am strong in cross-platform mobile apps, end-to-end web development, teamwork, and rapid iteration.

SKILLS

Programming: JavaScript, Python, C, C++, Typescript, PHP

Database: MongoDB, SQL

Frameworks: MERN stack, React Native, NextJS

Tools: Git, GitHub, Postman, Supabase

Other: Problem Solving, Team Collaboration

PROJECTS

SafaCity - Waste Segregation Project

- AI-powered mobile application that promotes cleaner, smarter cities by helping users identify waste types through their phone camera and providing real-time guidance.
- Built with React Native + Expo, TypeScript and powered by Google Gemini AI Project
- [Project Github Link](#)

myNotes - MERN Notes App

- A modern, secure, and responsive Note-Taking web application built with React, Zustand, Chakra UI and Node, Express, MongoDB.
- Features user authentication, OTP email verification, and CRUD operations for notes.
- [Project Github Link](#)

ACADEMIC HISTORY

Bachelor in Computer Engineering

- GPA: 3.94/4(1st Semester)
- IOE Pulchowk Campus
- 2024-Present

High School (+2)

- GPA: 3.91
- St. Xaiver's College, Maitighar
- 2022-2024

School Level

- GPA: 3.90
- Mount View School, Balkot, Bhaktapur
- 2022
